“

”

Thank you for your application to the University of Cambridge.

We wish to ensure that, wherever possible, if you have any disability, neurodiverse condition, mental health condition or long-term health condition we make appropriate adjustments if you are invited for interview. We also wish to ensure that your interviewers are aware of any information that may be relevant in the context of your interview, Cambridge College registered written assessment or pre-interview reading/written tasks.

If you have a disability, neurodiverse condition, mental health condition or long-term health condition please return this form by no later than                     . We are aware that some prospective applicants are reluctant to disclose a disability but we would like to reassure you that the disclosure of a disability will in no way adversely affect the assessment of your application.

If a completed form is not received, then the College will assume that you do not require any adjustments if invited for interview and none will be made, similarly if a completed form is returned after the deadline, then the College cannot guarantee that it will be possible to make the required adjustments in the time available before interview.

Please have the information provided within the form confirmed by your teacher/tutor or another relevant member of staff at your school/college/university (or other appropriate specialist if you are no longer in education) and provide the appropriate evidence as requested. If you have a neurodiverse condition, please do      send a full Educational Psychologist report at this stage unless there is particular reference to the support you require that will help the College make appropriate adjustments to its assessment and selection procedures.

If you have any queries please contact the College Admissions Office. We look forward to hearing from you.
